The Family Room offers resource and support programs which serve parents of children from birth to age eighteen, children, and families in differing ways and in a wide variety of settings. We provide services to every kind of family, from two parents to single parent, from new parent to parents of teens and to grandparents who now care for their grandchildren.

Our family resource and support program is a collaborative effort by the City of Lakewood, Department of Human Services, Division of Early Childhood, Division of Youth, Division of Health and Division of Aging. In general, The Family Room:

- ◆ Provides linkages within Lakewood to other systems of services and support.

 - Are children busy and happy?
 - Are the teachers actively involved with the children?
 - Is the physical space inviting and safe?
 - What is the schedule of activity?

- ◆ Is the physical space safe and inviting — both inside and out?

TEN TIPS FOR FAMILIES

1. Set aside time each day for just you and your children; play a simple game, visit someplace new, talk and listen together.
2. Establish routines in your home, especially around bedtime and meals. Children need structure.
3. Enjoy and respect your children for who they are, not what you want them to be. Avoid comparing children to others.
4. Set aside time for yourself, and time for yourself and your partner; "adult-only" time helps reduce stress.
5. Allow your children to make their own choices whenever possible and expect your children to help around your home; appropriate responsibilities build self-esteem.
6. Hug, kiss and cuddle your children. Physical attention does not spoil children but rather helps them feel loved and secure.
7. Children watch what you do more than what you say; practice what you preach.
8. Read books to your children and read books yourself: instill a joy of reading.
9. Set limits for your children: be specific, be brief, be consistent.
10. Seek out support and education from agencies and other parents; there are many resources available.
