## Collection Process

Due to the excessive amount of leaves on Clifton Boulevard and Lake Avenue, these streets will be collected separately. Collection crews will start working at the east end of Clifton Boulevard and Lake Avenue and work west until completed. After crews have completed Clifton and Lake, they will collect leaves citywide starting from the west end and working east. The number of citywide collections will be weather dependent. Residents should place their leaves out as soon as possible to ensure collection.

**IMPORTANT:**  
In order to make the leaf collection process as effective as possible, the City asks residents to please rake leaves onto tree lawns as close to the curb as possible. Raking leaves into the street will slow the collection process and may cause basement flooding.
