PART II – PROJECT DESCRIPTION

Please attach a separate sheet of paper with the answers to Part II, questions (1.) and (2.) **Limit your narrative to no more than one (1) page for each question.**

1. PROBLEM / NEED IDENTIFICATION

BRIEFLY DESCRIBE THE SPECIFIC COMMUNITY DEVELOPMENT PROBLEM OR NEED ADDRESSED BY THE PROGRAM. DESCRIBE HOW THE PROBLEM OR NEED INVOLVES LOW- AND MODERATE-INCOME RESIDENTS IN LAKEWOOD, OR HOW IDENTIFIED CONDITIONS COULD LEAD TO PHYSICAL BLIGHT IN THE COMMUNITY. USE OF DATA OR STATISTICS IN THE DESCRIPTION IS STRONGLY ENCOURAGED. EXPLAIN ANY PREVIOUS ACTIONS TAKEN TO ADDRESS THIS NEED.

The pavements on the CDBG eligible streets are severely deteriorated including extreme cracking, rutting and potholes. Poor street conditions have a negative impact on the culture of a neighborhood and a negative impact on business development. Recent experience has shown that homeowners and business owners have a tendency to neglect or delay repairs to their homes/businesses in these deteriorated areas, especially when budgets for such repairs are limited. The existing water mains on many CDBG eligible streets are made of cast iron and most are close to 100 years old. Prone to breakage, they can damage pavements and as a result of fracture may introduce harmful bacteria into the pipe during repair. The majority of the older mains are 6" in diameter, and reduce the amount of water available for fire protection.

2. STRATEGY STATEMENT

DESCRIBE HOW THIS REQUEST FOR FUNDS WILL ADDRESS THE PROBLEM OR NEED IDENTIFIED ABOVE. THIS SECTION SHOULD SPECIFICALLY DESCRIBE AND QUANTIFY THE SERVICES TO BE PROVIDED, OR THE PROJECT TO BE UNDERTAKEN WITH THE REQUESTED CDBG FUNDING. INCLUDE AN OBJECTIVE THAT IS A SPECIFIC, MEASURABLE OUTCOME TO BE ACHIEVED IF THE REQUEST FOR FUNDS IS APPROVED AND THE PROJECT COMPLETED (E.G. TO RECONSTRUCT 500 LINEAR FEET OF SIDEWALK FOR 50 UNITS OF HOUSING IN A LOW/MODERATE INCOME NEIGHBORHOOD.)

The 2012 CDBG Street Repair Program will help fund the roadway resurfacing of over **1,015 linear feet** of **Newman Ave.** (from Madison Ave. to Franklin Blvd.). **4 Apartment Buildings** and **32 housing units** with **over 168 residents** of low to moderate income as well as **Four businesses** will directly benefit from this work.

The 2012 CDBG Street Repair Program will also help fund the roadway resurfacing of over **1139 linear feet** of **Ridgewood Ave.** (from Madison to Franklin). **43 housing units** and **over 160 residents** of low to moderate income as well as **two businesses** and **one Senior Living Center with over 100 residents** will directly benefit from this work.

The 2012 CDBG Street Repair Program will also help fund the roadway resurfacing of over **886 linear feet** of **Lakewood Ave.** (from Detroit to the RR tracks). **36 housing units** and **over 110 residents** of low to moderate income as well as **two businesses** will directly benefit from this work.

The 2012 CDBG Street Repair Program will also help fund the roadway repair of over **1100 linear feet** of **Donald Ave.** (from Clifton Blvd. to South Terminus.). **37 housing units** and **one Apartment Bldg.** with **over 100 residents** will directly benefit from this Improvement Target Area work.

The 2012 CDBG Street Repair Program will also help fund the roadway resurfacing of over **1700 linear feet** of **Rockway Ave.** (from Franklin Ave. to Detroit.). **73 housing units** with **over 200 residents** of low to moderate income as well as **one business** and **The Beck Center** will directly benefit from this work.

The existing roadway pavements will be resurfaced or repaired as part of these projects. Base repairs will be performed where required. The existing sewers will also be rehabilitated, as needed, with City of Lakewood funds prior to the roadway construction work. Curb ramps, featuring handicap-accessible design conforming to ADA requirements, will be installed at all crosswalks. All crosswalks will be replaced with colored stamped concrete that imitates brick pavers.

The 2012 CDBG Watermain Replacement Program will replace **500 linear feet** of watermain on **Idlewood Ave.** (from Clifton to the Williamson). **19 housing units** with **over 45 residents** on this low to moderate income street will directly benefit from this work.

The existing circa 1915 6" cast iron watermain will be replaced with a new 8" ductile iron water main. The new watermain will increase volume for fire protection, lowering the insurance costs for the adjacent properties.

Upon completion of these projects, we will begin to see home improvements, increased property values and a very real sense of increased pride throughout the neighborhoods. CDBG funds allow the City of Lakewood to continue improving our streetscapes, attract new homeowners and businesses, and maintain Lakewood's reputation as a desirable place to live and grow.

3. PROJECT AREA (city-wide, or identify census tract, neighborhood street boundaries, or street address where project is to take place): _____

Streets identified for the 2012 CDBG Street Improvement Program include:

- 1) *Newman Ave. (Madison Ave. to Franklin Blvd.)*
