2. SUBSTITUTE RESOLUTION 9069-19 A RESOLUTION to take effect immediately provided it receives the affirmative vote of at least two thirds of the members of Council, or otherwise to take effect and be in force after the earliest period allowed by law, authorizing the Mayor and Director of Law to enter into a purchase agreement with Cove
United Methodist Church \textit{fka} Detroit Avenue Methodist Church Inc., an Ohio non-profit corporation, owner of the property located at 12525 Lake Avenue, Lakewood, Ohio (PPN 312-28-006), and to execute all documents necessary to effectuate the purchase and sale according to the terms of that agreement. Motion by President O’Leary, seconded by Vice President Anderson to adopt Substitute Resolution 9069-19.

\textit{Discussion:} Councilmember O’Malley restated his support for the purchase of the property, particularly for the reason of the property serving as a potential future location for a community/senior center. 3. Health & Human Services Committee report regarding meeting held May 6, 2019. (to be provided)

Health & Human Services Committee met May 6\textsuperscript{th}. Present were Committee members Anderson, George, as well as myself. Councilmembers Rader & Bullock were also there, as were Mayor Summers, Assistant Law Director Swallow, Director Gelsomino, Jessica Parker, Allison Urbanak from Lakewood Alive, John Sobolewski from the Board of Health & one member of the public. We had two items on our agenda, one was Resolution 9066-19. Essentially the Lakewood Foundation had an agreement to accept monies for a new 17-passenger vehicle for seniors. The committee moved to recommend adoption of that resolution.

We also discussed a communication from Councilman Rader and I regarding lead exposure among children. We kicked off the discussion with Allison from Lakewood Alive talking about the Housing Outreach Program and Pain Lakewood offering relatively small grants for paint programs. We wanted to update the Committee regarding what Lakewood Alive is already doing on this front. Director Gelsomino updated the Committee that since its previous meeting, the administration has updated the City website extensively on options for lead abatement and resources available to residents. She also spoke with Housing Department staff regarding implementation questions and issues and how we can make progress there. A primary issue that came to light is that landlords are asked to remediate lead issues in their homes but are able to do it themselves and not by a certified contractor. John Sobolewski from the Board of Health views this as a housing issue that becomes a health issue because of the presence of lead in homes.
We were talking about a task force but instead will look to the administration for some guidance on best paths forward to address this issue.

Motion by Councilmember Litten, seconded by President O’Leary to receive and file the oral report.

Discussion: Councilmember Rader expressed feeling encouraged by the administration and Board of Health responses to the problem.

Mayor Summers committed to returning to Council in September with some ideas to pursue on this topic.

All members voting yea. Motion passed.

(Referred to HHS 4/1/19) (pg. 31)

5. Finance Committee report regarding meeting held May 20, 2019. (to be provided)

The Finance Committee met this evening & considered two ordinances, the first was Ordinance 50-18A to amend the contracting authority ordinance for professional services in two instances. First was to provide for additional management training. There is a very effective program that has been used by the HR Department and they are going to be expanding the number of folks who are going to be eligible for that program. That expands the contracting authority $205,000 for that item. The second was to authorize $250,000 for hazardous material abatement and site preparation for Cove Church. We talked about what that will entail. That number was arrived at based on numbers provided by a consultant. We will have a better idea of what work will remain once the City is authorized to access the property but this authorizes the City to take this first step on the Cove Church property. The Finance Committee unanimously recommended adoption of this.
The second item that the Committee addressed was to amend the memberships ordinance to include the National Association on Mental Illness to provide additional training and resources to the Police Department. It is $60. The Finance Committee unanimously recommended adoption of this ordinance. The Finance Committee resolved to discuss the membership ordinance and Council’s process during the budget hearings.

Councilmember O’Malley clarified that the Committee recommended adoption of Substitute Ordinance 50-18A.

All members voting yea to receive and file the report. Motion passed.

ORDINANCE 09-19 - AN ORDINANCE to amend Section 1105.02 of the Zoning Code of the Codified Ordinances of the City of Lakewood by changing and revising the Zoning Map of the City with respect to certain property as set forth and described as 13900 Lake Avenue (PPN 312-05-011) from R1M (Single-Family Residential, Medium Density) to PD (Planned Development). (Placed on 1st reading and referred to Planning Commission/ABR 3/4/19; 2nd reading 3/18/19) (pg. 52)

Public Comment:

George Quill of 13468 Lake Ave. stated his opposition to the development, expressing his disappointment that there was not more public information on the project. He did not agree with the setback distance of 14 feet from the street and asked if the property is not sold and the gas station remains for the time being, what other business would be allowed to occupy the site. Director Sylvester stated that the site can remain a legal nonconformity use as a gas station with vehicle repair and convenience shop. The Planning Department would evaluate future proposals that come in if they were not proposed for residential use.

Carolyn Gregory of 13888 Lake Ave. stated her opposition to the development. She expressed her displeasure with the setback distance and the layout of the residential structures. She stated the project should have grant money available to assist with remediation of the gas tanks on site. She advocated that the city use its funds to purchase the site, divide it into single family lots, and sell to developers to make the type of housing consistent with the rest of the block.

Ward Collins of 13475 Lake Ave. stated his opposition to the development. He said there should be 3 houses on the property and not 5, as the development proposes. He expressed concerns about the setback distance and the project’s potential as a fire hazard.

Justin Smith of 13945 Lake Ave. stated his opposition to the development. He expressed his belief that the project detracts from the neighborhood and urged the city to reconsider the project.
Motion by President O’Leary, seconded by Vice President Anderson to refer Ordinance 9-19 to Committee of the Whole.

Discussion: Councilwoman George stated her concerns about the project’s density, scale, and proposed setbacks. She added she is not comfortable with the proposal in its current form. Councilman Litten inquired as to the discussion surrounding the costs of site remediation. Director Sylvester stated that the owners of WXZ, the site developer, will discuss the costs of site remediation with Council in the future. Councilman O’Malley asked if the City conducted a soil analysis on the property a couple of years ago. Director Sylvester said that a resolution that provided support to apply for funding to do soil analysis passed, but the City was turned down for funding by the county. Survey work was privately funded by a potential seller and buyer.

Councilman Rader asked if this matter was set to be discussed at Committee of the Whole on June 24, 2019 and President O’Leary confirmed that and added that voting on the issue will take place on July 15th prior to Council’s August recess.

Councilman Bullock’s stated that the primary concern is the change in character of the area and that density and setbacks play a role in that, but spoke about the potential tax impacts of the developments. He highlighted the difference between private sectors and public sectors in how they operate in regard to the concerns raised at the meeting, noting that this proposal has the potential to set precedent.

President O’Leary stated his understanding of the concerns in regard to the setback and noted that he attended Planning Commission and ABR meetings on the project. He added that he is impressed with the aesthetic look of the proposed properties and noted that Council cannot consider these proposals in a vacuum and that an up or down vote is needed on the proposal in front of the body. He noted that there will be more time in Committee to discuss this proposal starting on June 24th.

On the motion: All members voting yea. Motion passed.

Councilmember George asked questions about parking as it relates to construction of the planned parking structure at One Lakewood Place. Director Sylvester clarified that Cleveland Clinic employees lease spaces in the Lakewood Center North garage. He noted that this arrangement allows for plenty of parking for patients in the existing lot.

Councilmember Bullock thanked the administration for its attention to detail and expressed appreciation to the Clinic for honoring the agreement.

Mayor Summers pointed out the various other monies the City has received related to the Carnegie development including monies from the sale of the hospital generators, and $600,000 from the County toward demolition costs, among others. He noted that there are no current plans for the funds but that he is looking to Live Well Lakewood for guidance.

Director Pae clarified that there are significant funds in the Lakewood Hospital Fund and that it is at the discretion of Council to decide how to appropriate them. She advised that Council wait until One Lakewood Place is built and is tax generating before those decisions are made and to have a strategy in place. She acknowledged this is a conservative recommendation and takes into account the possibility of the economy taking a serious downturn.

Councilmember Bullock requested further discussion of this matter during budget hearings. He pointed out that some of the proceeds in the fund were intended to tie the City over for any loss of revenue related to the closure of Lakewood Hospital and that those funds have not needed to be used.

In response to a question about the “tenor of the negotiations with Cleveland Clinic,” Director Butler stated that it is most fair to characterize this as a contribution that the Clinic was not required to make.

Councilmember Anderson asked for additional information to Council and the community about the status of the hospital wind-down funds.
