The City of Lakewood has established the Small Business Rent Relief fund in order to support the vibrancy of Lakewood’s commercial corridors during the COVID-19 pandemic. One of the goals in the Community Vision is to “strengthen economic development efforts to increase commercial occupancy”. These grants, up to $3,000, can be used towards a business’s rent payment. After the first month of the fund, the program will be evaluated based on the restrictions at the time and business needs.
